DANISH FARMERS CO-OPERATE

Denmark exports forty million GLASS WHICH CANNOT eggs a year—a number of which puts her at the head of egg-exporting na tions. The high reputation of the Danish egg is to be maintained by a further development of the wide and close organizations which unites the producers. Central collecting depots for eggs have been established in the smallest towns. As each farmer brings his eggs, they are stamped with his number, and a letter standing it; a heavy man thrown against it unfor his particular branch. From there they go to a larger station, where they are candled, graded and sorted for size. Any stale eggs that are de-tected can be traced to the producer by the number and letter. For the first offense the guilty farmer is fined; for the second he is liable to expulsion from the association.

PROSPECTS GROWING BRIGHTER FOR BLUE GRASS LEAGUE

Interest in the reorganization of the old Bluegrass League, which has bob-bed up and down like the mercury in a thermometer during the trying days of Spring, is again taking on new life, fanned by the news that reached Paris Wednesday to the effect that the work would now surely go forward.

Those who have been directly inter ested in the movement have been vas: y encouraged by this late news and they now declare that the Bluegrass season will reopen here and in the other towns in the proposed League. Mr. William Watkins, of Maysville a strong supporter of the game, and

one of the strongest lights in minor base ball in Kentucky, who is as well known in Ohio as he is in Kentucký, has issued a call for a meeting of those interested in the movement, to be held in Cincinnati at once. It was the original intention to hold the meeting in Lexington, on account of its central location, but after consultation the meeting place was changed to Cincinnati. Representatives from all the towns mentioned as candidates for the League will attend this meeting. A brilliant prospect has been opened

up to the promotors with the news from Covington that Garry Hermann. owner of the Cincinnati Reds, has at last given his consent to allow the Blue Grass League to place a team in Covington. It was the threatened in vasion of the river town in 1913 that caused the expulsion of the Blue Grass League from the protection of the National Baseball Commission. There was a ruling that a minor league could not place a team in the fivemile limit of a major league. Covington was within the limit and when the magnates were too strenuous in their demands on the commission they were outlawed. The Blue Grass League had been a success financially, and many star players were graduated from the teams then playing.

According to the information reaching here Wednesday it has been practically settled that the towns which will be represented in the League are: Paris, Maysville, Lexington, Winches ter. Covington, Newport, Frankfort and Richmond, with Georgetown, Law renceburg, Versailles, Shelbyville, Mt Sterling and Nicholasville all trying to have the limit extended so as to take them in.

CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED.

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold-always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and pois ons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep-a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and (adv) bowels regular for months.

BE SHATTERED

A new glass, transparent, tough and strong, which has all the advantages and none of the defects of brit tle, fragile window glass, has been invented.

A twenty-two caliber bullet cannot penetrate it; a brick cannot shatter der all the terrific momentum of a collision would not go through it, but would be thrown back from it, uninjured by flying glass, because none would fly. A stone thrown against it will bounce back like a golf ball.

The secret of its strength, says the Poular Science Monthly, is a sheet of white, transparent celluloid, twentyty-one thousandths of an inch thick, which is placed between two pieces of glass. The glass and celluloid are simply welded together under high temperature and tremendous pressure, the resultant being a solid sheet possessing all the transparency of the best plate glass, combined with the strength of a sheet of metal.

BASKET BALL WARNING.

Caution against overexertion when maying basket ball has been given to Cincinnati school pupils by Dr. Car! Zeigler, Director of Physical Training, who says tests have demonstratod the game to be the most strenuous played by young people. Tennis, per haps, rather than football, is a close second, he says.

Basket ball, of all the sports, is most likely to cause heart lesion, a dangerous disorder which restricts ali eature activities of the athlete. Girls. said Dr. Zeiger, should never play the regular game of basket ball, and toys should play no more than one or two games a week. He warns principals of schools against permiting boys to belong to more than one team, and says playing on outside eams should be prohibited.

Dr. Zeigler says examination of players in all games should be made sefore and after participation.

ENDORSED AT HOME.

Such Proof As This Should Convince Any Paris Citizen.

The public endorsement of a local entizen is the best proof that can be produced. None better, none stronger can be had. When a man comes for ward and testifies to his fellow-citi zens, addresses his friends and neigh pors, you may be sure he is thorreighly convinced or he would not do so. Telling one's experience when it is for the public good is an act of vindness that should be appreciated. The following statement given by a resident of Paris adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

H. C. Hutchcraft, 1115 Main street, Paris, says: 'I have used Doan's Kid ney Pills off and on for a great many years and with good results. When ever I have suffered from weakness or lameness across my back, I have al ways found Doan's Kidney Pills, prooured from the Ardery Drug Co., never
